

Cloud Business Solutions Services

Innovate

Improve Products & Services with Packaged Cloud Solutions

Our Cloud Business Solution look to target key business use cases for the cloud and consists of cloud specific solutions in the areas of analytics, workforce solutions, enterprise applications and other technologies to target specific customer needs.

What We Deliver

We focus on delivering cloud solutions that are re-architected, developed, or consumed through the market place, using the following use cases;

- *Big Data Analytics*
- *Business Productivity*
- *Workplace Solutions*
- *Digital Online*
- *Enterprise Applications*
- *Infrastructure Solutions*
- *Business Resilience*

How We Deliver

Our Business Solutions for Cloud leverages strong partnerships technology companies, specific Cloud vendors and with our PwC multi disciplined technology teams deliver the application and information services your customers will require tomorrow.

Cloud Alliances

We partner with small highly skilled Cloud solution companies that have experience delivering and re-architecting industry specific enterprise applications and solutions on Cloud

PwC Collaboration

We work closely with our Application, Digital, Cyber and Analytics teams in PwC to re-platform industry and enterprise specific applications and informational solutions to the Cloud

Cloud Vendors Partnerships

We partner with the Cloud vendors and their solution architects to deliver Infrastructure solutions required to service your business better through re-platforming of applications and informational services.

Capability

- **We leverage relationships with other consulting groups Digital, Analytics and Cyber** to create cloud based solutions focused around industry groups and specific product/service areas – big data, business productivity, workplace solutions, digital, collaboration etc.
- **Partner with PAAS providers** – SAP, Oracle, Microsoft, Google
