Cloud Strategy & Advisory Services

Plan ♟

Enable Business Strategy & Tech Ambitions with Cloud

A set of core consulting services focused specifically on strategy, architecture, cloud assurance, cloud economics, sourcing, governance, cloud organisation design and the innovation you require to transform your business to 'switch-on' the power of Cloud to maximise your business to service your customers.

What We Deliver

You can expect pragmatic cloud strategy and implementation methodology, including:

- *Cloud Strategy*
- *Cloud Maturity Assessment*
- *Capability Roadmap*
- *Cloud Operating Model Design*
- *Cloud Economics and Sourcing*
- *Proof Of Concepts*
- *Governance and Standards*
- *Architecture*

How We Deliver

We will lead focus groups, interviews and workshops at your site where we aim to determine the benefits and optimal set of Cloud services for your business to consume by focusing on the following topics;

Cloud Strategy and Maturity

We will work with you to perform a detailed analysis of the applications and platform environments to develop an effective strategy

Cloud Proof of Concept

Exercising workshops with you we will identify how services interact to develop a proof of concept solution

Governance and Standards

As part of the process we will develop an effective governance framework to be used by the business

Operating Model

Build up an understanding of business and operational process within your organisation and how best to adapt to a Cloud model

Capability

- **Over 20 PwC Cloud Consulting** specialists
- **PwC Digital, Analytics & Cyber** consultants with specialist expertise in various cloud solutions
- **We have a unique alliance** partnership that allows us to service individual businesses with a tailored solution best suited to meet your business requirements
