

Going beyond

PwC's Compliance Services

Value through our certification process

Through all stages of the certification process, we focus on providing you with a certification audit that is strategically relevant, highly valued and fully connected to your objectives:

Value through the initial audit...

The audit is focused on key controls, risk mitigation and the quality drivers within your management systems

Our teams are prompted by our methodology to identify opportunities for improvement

Non-conformances are identified early in the review process to enable timely remediation

Value through triennial audit...

A fresh approach using our digital platform will streamline your certification process

Value through surveillance...

Reviews are focused on any change in procedures since certification, with timely follow up of corrective action and internal assessments
