

Cloud Migration Advisory Services

Transform 

*Transform your
business with Cloud*

Our Migration services help organizations realize their cloud strategy through experienced migration governance and processes, multi cloud knowledge and technical cloud implementation services.

What We Deliver

You can expect the delivery of migrated workloads through carefully orchestrated migration governance and management;

- *Readiness Assessments*
- *Transition Roadmaps*
- *Solution Architecture*
- *Workload migration planning*
- *Project Management*
- *Data Centre Migrations*
- *Application Re-Platform & Re-Architecture*
- *Cloud Enabled Applications Sourcing*

How We Deliver

Our migration service will work with and manage key migration alliances and cloud vendor partnerships to conduct a number of pre and post migration activities focusing on the following activities;

Build Secure Resilient Cloud platforms

We work closely with the Cloud vendors to deliver a platform that aligns to industry best practise

Business Conversion

We work closely with the business to convert existing business and operational process to better consume Cloud services

Cloud Migration Plan

We will deliver a detailed step by step migration plan of the applications in scope including a post migration test plan

Migration Setup and Execution

We partner with key technology providers with the best of breed tools and technology capabilities to execute the migration plans

Post Migration Test and Review

We will oversee the post migration reviews and tests and formulate a checkpoint with you to agree sign off

Capability

- **50 PwC Technology Consultants** experienced managing delivery and large scale programs of work end to end
- **Best practice** implementation guides designed by PwC consultants
- **Alliance partners** to help leverage tools and experts to execute the migration plan
- **Cloud Vendor partners** providing solution architects to help design the Cloud platform(s) (*AWS, Azure, SoftLayer and VMware, OpenStack*)
- **PwC Cyber workforce** focused on security and assurance of platforms and applications
