1. Expected return to creditors
2. Reasons for the Company's failure
3. Offences, voidable transactions and insolvent trading
4. Directors' Report as to Affairs (RATA)
5. Summary of historical financial results

Creditors are also advised to have regard to sections 7 and 8 of the Report for details of directors, registered charges and shareholders, along with the discussion on books and records.

1. Expected return to creditors

Based upon investigations to date, we estimate the return to creditors from the realisation of Company assets (excluding any realisations from claims by a liquidator) as:

Banking syndicate	-
Security interest holder	-
Employees	-
Ordinary unsecured creditors	-

Subject to the outcome of potential litigation (if pursued), the return to certain creditor classes may increase (refer section 7 of the main report).

All or substantially all employee entitlements (excluding superannuation arrears) have now been paid by DEEWR under the GEERS. These amounts are funded directly by DEEWR and not recoveries generated from Company assets. To the extent any return to employees is available, this will be distributed on a pro-rata basis to DEEWR for funds advanced and the ATO for outstanding superannuation.

2. Reasons for the Company's failure

The Administrators' consider the principal reasons for the Company's failure are:

- Poor pre-contract project risk assessment and poor controls over pricing and project management
- Reticence of management to report underperformance in the relevant reporting period resulting in inappropriate management decision making
- The cessation of funding from a related company, Hastie Holdings Pty Ltd.

3. Offences, voidable transactions and insolvent trading

The Administrators' preliminary findings are detailed at section 7 of the body of this report.

4. Directors' Report as to Affairs (RATA)

The directors have not supplied a RATA.

Administrators' comments

1. From November 2011, the Company's cash on hand was 'swept' daily into an account of Hastie Holdings Pty Ltd which performed the treasury function for the Australian trading operations. Given this, the swept balance has been included in the intercompany balance. Upon appointment, the Banking Syndicate placed a 'debit freeze' on the account pursuant to its security.
2. Found to be approximately \$1.5m at appointment.
The majority of receivables have lodged offsetting claims against the Company. Estimated collections have not been disclosed to avoid compromising negotiations and realisations. The total of receivable recovered to 31/12/2012 is \$104k.
3. Likely to be unrecoverable; the majority of inventory being on building sites beyond the Administrators' control.

4. Estimated value has not been disclosed to avoid compromising negotiations and realisations.
5. The sale of business program did not yield any acceptable offers. Consequently, plant and machinery was sold at auction. Reported recoveries are net of direct realisation costs arising from collection and auction.
6. The Company has entered into a deed of cross guarantee with Hastie Group Ltd pursuant to ASIC Class Order 98/1418.
7. The Company is a co-guarantor to the Banking Syndicate's facilities of \$260m. This debt is secured by the Company's assets and assets of various related companies.
8. The \$76k increase represents redundancy costs and an adjustment to other entitlements underprovided by the Company.
9. The Company is a co-guarantor to the Banking Syndicate's Performance Guarantee and Financial Guarantee issuance facilities of \$270m secured by the Company's assets and assets of various related companies.

Administrators' comments

1. Revenue levels have been buoyed by two large projects (the Gold Coast University Hospital and Royal North Shore Hospital).
2. The steady decline in profit margins since FY09 reflects a lack of appropriate project management protocols as well as the impact of competition across the construction industry. Key projects identified at note 1 generated particularly low margins.
3. Many of these costs were replicated within Hastie Holdings Pty Ltd which provided the administration function to the Company and other Hastie Group (operating) companies. The Company also maintained its own administration function, the costs for which are incorporated in 'Other operating expenses'.
4. A result of less than one indicates that the Company was operating with financial stress. This was however mitigated by funding provided by Hastie Holdings Pty Ltd.
